If someone brings in a fluffy ginger male cat (neutered) his name is Jack. Please could you contact me, we are desperate to find him. He escaped from my friend's home in
Claremont while we were renovating and moving to Fish Hoek. If you recognise him and Jack has made his home with you then won't you let us know as we just want to make sure he is safe and cared for. He has a chip - 945000001889713 These photos will also make it easy to identify him. He was chipped and all medical details are with
the Glencairn vet. Thank you so much for your help and time with this.
