‼Urgent‼ My parents were travelling on the N12 highway. Our dogs were in the canopy of the bakkie. They exited the highway at putfontein off ramp. The one side on the
canopy seems like it wasn’t clipped in properly. Our female Jack Russel has either jumped out or she has fallen out between Bronkhorstspruit and Benoni. She has warts in
her body and one on the inner corner of her eye. Please keep your eyes open for her as she could be any where. We stay in the Rynfield area. She has a pink collar on, with no tag. She is not microchipped. Please contact Claudia on 0786798850 for any information.
